

SAS HACKATHON 2023

Where Your Curiosity Leads to Innovation

DIPLOMA

(☒■_■) [Sunglasses]

Narodowy Institute Onkologii, Poland

Winner: Student & Young Talent

JURY PERSPECTIVE

Excellent business case, solution and storytelling. Great use of text analytics and machine learning as a browser plugin to identify online body hate speech. The warnings are reminders to be more thoughtful about social media posts. The team helps us consider how our words matter – and how analytics can address this worrisome trend.
